Mudassar Nazir

CTO at Appstown
Abu Dhabi Emirate, United Arab Emirates

Summary

“ To build great Software Products spend more time on planning over coding :) ”

Mudassar is a highly efficient and reliable professional who possesses a broad skill set in building B2C & B2B technology products and managing early-stage tech startups.

He has great expertise in the software development process ranging from requirement gathering, wireframing, prototyping, and design to development & deployment.

Recently most of his work consists of leading technical teams, by creating an easy development environment, fixing technical debts, providing best practices code examples, and mentoring devs.

Skull Saver

Co-Founder & IOT Engineer

September 2017 - December 2020 (3 years 4 months)

Punjab, Pakistan

Skull saver is a vision to save the lives of careless people and reduce the billion dollars healthcare cost.

According to the NHTSA Moreover, if all motorcyclists had worn helmets in 2017, an additional \$1.5 billion in economic costs and \$8.9 billion in comprehensive costs could have been saved.

According to WHO, More than 90% of road traffic deaths occur in low- and middle-income countries and the most affordable way of transportation in these countries is motorbikes.

We developed a working prototype of an intelligent helmet, which will make sure everyone will wear the helmet while riding a bike.

If someone does not wear a helmet, he can not start the motorbike.

Fortunately, bike helmets reduce the risk of head injury by at least 45%, brain injury by 33%, facial injury by 27%, and fatal injury by 29%.
